

Credit for Nonbusiness Energy Property Official Manufacturer's Certificate

This authentic document certifies that genuine, field-applied siding insulation from Progressive Foam is closed-cell expanded polystyrene insulation, and is eligible rigid board insulation used on the building envelope. These products thereby qualify as insulation materials under the 2016 Energy Star Tax Credit Program for 10% of the cost, up to \$500, applicable to improvements made through December 31, 2016. The tax credit does NOT include installation costs, but you can install the insulation yourself and get the credit. Any qualified products, in both original and premium series, include:

- Fullback®V Siding Insulation for Vinyl Siding (drop-in, field-applied)
- Fullback®FC Siding Insulation for Fiber Cement
- Linebacker® Siding Insulation
- Halfback®H20 Universal Siding Insulation
- Halfback® Universal Siding Insulation
- ProBoard® Insulating Sheathing
- ProFold® Fan-Folded Underlayment
- Insulated accessories, including corner posts, insulating shims, etc.

Visit https://www.energystar.gov/about/federal_tax_credits/ for more information.

Thank you for purchasing a product that will give you a lifetime of satisfaction. As pioneers of the technology, we stand behind our product.
